EXP-13

13. BlossomGifts, a user-friendly online platform, offers a seamless experience for ordering flowers and gifts for any occasion. The website features a diverse selection of floral arrangements, gift baskets, and personalized gifts, all organized by occasion, recipient, and price range. Key functionalities include user registration and login, a customizable order system with options for delivery dates and times, and detailed product descriptions with high-quality images. Customers can track their orders in real-time, schedule future deliveries, and receive order confirmations via email or SMS. The platform also supports secure payment methods and provides special promotions and discounts for loyal customers. BlossomGifts aims to make sending thoughtful gifts and flowers easy and convenient, ensuring timely delivery and customer satisfaction.

Functionalities

- Search gifts by occasion, recipient and maximum price.
- View flowers and gifts with price and availability or special tags.
- Order a gift with a chosen delivery date and time slot, including future deliveries.
- Track each order in My Orders through its delivery status.
- Download or print the order list.
- Responsive layout for desktop, tablet and mobile.
- Backend features (login, payment gateway, confirmation emails, admin panel) are to be connected to this frontend.

1. HTML Code

Save the following code as index.html. It includes HTML, CSS, and a small JavaScript search, order and tracking interaction. Replace sample records with real data when connecting a backend.
